

**Nursery  
Homework**

Date: 9/05/25

**Weekly theme: International Nurses day**

**Weekly question: What is happening to our plants?**

**Phonics:**

**We have read the story:**

**Fidgety Fish**

[Bing Videos](#)

We have sung our song:

**Five Fidgety Fish**

(see the words overleaf)

Use the words beginning with 'F' to make up a name for the Fidgety Fish.

This week's story is: A seed in need

[Bing Videos](#)

We have been looking at our beans growing and learning the names of the different parts of the beanstalk e.g. roots, stem, stalk and leaf.

**Writing:**

Practise writing your name. Only a capital letter for first letter e.g. Adam

**Maths task:**

We have been learning about positional language linked to describing where an object is. Where is the teddy?  
Story – 'Where's Spot?'

[Bing Videos](#)

**Physical task:**

How small can you curl up to be a tiny seed?  
Slowly grow like a beanstalk. How tall can you grow balancing on your tip toes? Stretch your arms above your head.  
Practise each day so you can balance for longer.

Play 'Hide and Seek' – hide an object in different places. When your child finds it, get them to tell you where it was e.g it was **under** the table, it was **on** the chair.

**Next week:** We will be thinking about: **What is a minibeast?**

5

5 Fidgety fish swam in the water so,

↑ + ↓ +  
Up and down and to and fro,

They flapped their flippers

And wiggled their tails,

But nobody knew they were frightened of whales.
