

KS1 - Simple slider

KS1 - Simple lever

Key Vocabulary

Design	To plan how to use a range of material to make something.
Mechanism	A device used to make movement
Slider	A bar that moves forwards and backwards or up and down.
Lever	A bar that moves around a pivot
Pivot	The central point.

Simple mechanisms

move:

 in a straight line

 in a straight line, backwards and forwards

 round and round

 in a curve

In EYFS you safely used tools and explored using a variety of materials to create something.

In Year 1, you will explore, design, make, and evaluate a card with a mechanism (lever or a slider).

Did you know?
Scissors, see-saws and pedals all have a lever mechanism.
