Maths task:

At school we have introduced the concepts of 1 more and 1 less. At home you can complete the following activity together with your child: Collect up to 5 objects, e.g., 5 spoons, 5 cups, 5 apples, etc. First ask your child to count out 2. Then ask the question: Can you tell me, or can you show me what is 1 more than 2? Your child should add 1 more object. They should say: **3 is one more than 2**. Repeat the activity. Ask your child to count out different number of objects. Then ask them to tell you what is **1 more** than the given number. You can also do the same activity, but asking your child what is **1 less** than the given number.

Physical task:

Fine motor practice:

Get a selection of socks, pegs and washing line. Ask your child to peg the socks on the washing line. Tell your child they can only squeeze the peg with one hand. Let your child practice then give them a challenge: How many socks can you hang up in 3/2/1 minutes?
